**Features vary by style.*

LENS COATINGS & ATTRIBUTES

POLARIZED | A specialized film filter is added to the lens, absorbing and reducing glare. These lenses are helpful to winter and water sport enthusiasts.

MIRROR | Reduces the amount of light that reaches the eyes.

MULTI-LAYERED COLORED MIRROR | Provides brilliant color and glare protection.

GRADIENT | Range dark on top to light on the bottom.

SCRATCH-RESISTANT | Helps reduce scratches and marks.

HYDROPHOBIC COATING | Repels water for easier cleaning.

LENS MATERIALS

POLYCARBONATE (PC) | A plastic lens used primarily in sport frames and is shatter, impact, and scratch-resistant.

FRAME ATTRIBUTES

RUBBERIZED COATING | Used mainly on sport styles, this coating helps prevent slippage and adds a comfortable, soft grip fit.

RUBBER TIPS, NOSE PADS, AND TEMPLE INSERTS | Used mainly on sport styles, these rubberized features add comfort and create a soft grip fit.

ROCKING NOSE PADS | Available on most metal styles, these nose pads can be easily adjusted to fit any face.
